

Maths

When looking at our Fractions unit, we will:

- Compare and order unit fractions.
- Find equivalent fractions.
- Place fractions on a number line.

When looking at our Length and Perimeter unit, we will:

- Measure, draw and compare lengths
- Add and subtract lengths
- Calculate perimeter
- Use a variety of units including centimeters, millimeters, and meters

Art/DT

What is street art? How is street art different to graffiti. In this unit, students will explore the mediums for street art, look at the inspirations behind famous street art, and even learn to use spray paint safely!

French

We will be learning the names of animals and be able to describe what pets we want or already own and what they look like.

RE

Christianity: What good news did Jesus share? What are the messages that Jesus gave his followers and how are they good news?

Computing

Learners will develop their understanding of what a branching database is and how to create one. They will use yes/no questions to gain an understanding of what attributes are and how to use them to sort groups of objects. Learners will create physical and on-screen branching databases. To conclude the unit, they will create an identification tool using a branching database, which they will test by using it.

Geography/History

This term in Geography, we will be learning about the United Kingdom and maps we use to navigate within it. This unit will include a focus on each of the countries within the UK: including their physical and human features, culture, and maps that show parts of each country and how to use them correctly.

Music

The children will be given an opportunity to look at composition and try their hands at creating their own music!

Year 3 - Spring 2

Fairground Forces Power of Reading Texts:

English

As we follow the story of Leon, as he falls into the place inbetween. The focus this term is on uplevelling the children's vocabulary to include more of the Year 3 and 4 common exceptions words (spelt correctly) and sorting sentences into paragraphs and demarcating these clearly in extended pieces of writing. Writing outcomes this term will include: non-fiction reports, posters, short first-person narratives, and creating their own book with the aim of imitating the dynamic and eye-catching lay-out of the story shown in our key text.

Science

This term, Year 3 will be exploring the science topic *Forces and Magnets* with a focus on understanding the forces around us and their names. Children will learn about the science behind magnetism and the use of magnets in everyday life.

PE

This term, students will develop their skills in basketball and gymnastics. These units will develop new skills and give children team games and performances to practice them in with the aim of building confidence and collaboration.

PSHE

Our Jigsaw unit this term is 'Healthy Me'. We will be learning how we can make healthy choices in life by exploring friendships, food and healthy lifestyle choices.
