

# Darley Dene - Addition Calculation Policy

Key language: sum, total, parts and wholes, plus, add, altogether, more, 'is equal to' 'is the same as'.

<b>Year 1</b>	
<b>Fluency</b>	<b>End of year expectations</b>
<p>Count forwards, to and across 100, beginning with 0 or 1 or from any given number</p> <p>Switch count between tens and ones e.g. 10, 20, 30, 31, 32, 33 ...</p> <p>Represent and use number bonds up to 20 (establish addition and subtraction as related operations)</p> <p>Find one more than a number Find ten more than a number</p> <p>Count in multiples of 2s, 5s and 10s starting on multiples to highlight pattern recognition</p>	<p><math>O + O</math> <math>TO + O</math> Numbers up to 20 (including adding zero)</p> <p>Children must experience combining two, and then more than two groups of objects using counting on and the language of addition e.g. add, plus, more</p> <p>Children must experience increasing numbers e.g. what is two more than seven?</p> <p>Compare quantities to say how many less and/or how many more</p>

<b>Objective and strategy</b>	<b>Concrete (build it)</b>	<b>Pictorial (draw it)</b>	<b>Abstract (write it)</b>
-------------------------------	----------------------------	----------------------------	----------------------------

<p>Combining two parts to make a whole: <b>part-whole model</b></p>	 <p>Use a part - part whole model.</p> <p>Use cubes to add two numbers together as a group or in a bar.</p> 	<p>Use pictures to add two numbers together as a group or in a bar.</p> 	<p>Use the part – part whole model to move into the abstract.</p> $10 = 4 + 6$ 
<p><b>Objective and strategy</b></p>	<p><b>Concrete (build it)</b></p>	<p><b>Pictorial (draw it)</b></p>	<p><b>Abstract (write it)</b></p>
<p><b>Starting at the bigger number and counting on</b></p>	<p>Start with the larger number on the bead string and then count on to the smaller number 1 by 1 to find the answer.</p> 	<p>Start at the larger number on the number line and count on in ones or in one jump to find the answer.</p> 	<p>Place the larger number in your head and count on the smaller number to find your answer.</p> <p><b><math>5 + 12 = 17</math></b></p>
<p><b>Regrouping to make 10.</b></p> <p><i>This is an essential skill for column addition later.</i></p>	<p>Start with the bigger number and use the smaller number to make 10. Use ten frames.</p> <p>( 6 + 5 )</p> 	<p>Use pictures or a number line. Regroup or partition the smaller number using the part whole model to make 10.</p>  <p><math>3 + 9 =</math></p> 	<p><math>7 + 4 = 11</math></p> <p>If I am at seven, how many more do I need to make 10. How many more do I add on now?</p> <p>Children to develop an understanding of equality e.g.</p> $6 + \square = 11$ $6 + 5 = 5 + \square$ $6 + 5 = \square + 4$

**Represent & use number bonds and related subtraction facts within 20**

2 more than 5

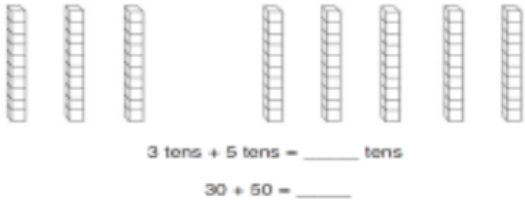

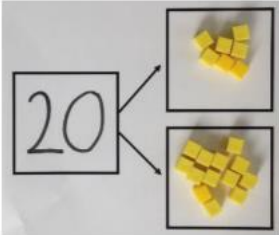

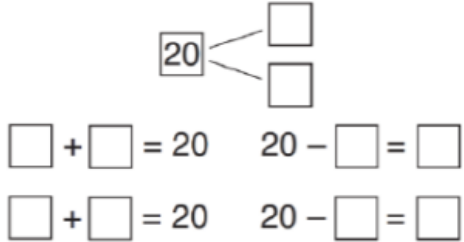

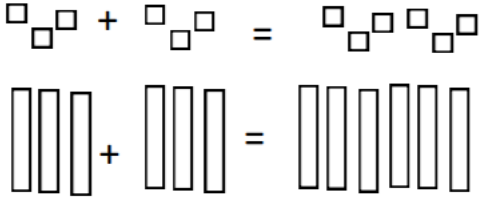

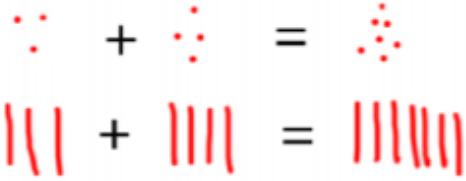

Emphasis should be on the ***language***

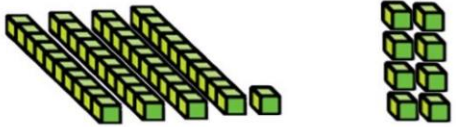

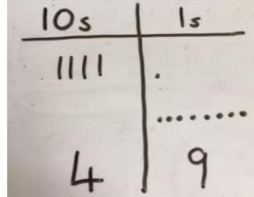

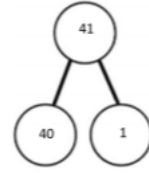

- '1 more than 5 is equal to 6.'
- '2 more than 5 is 7.'
- '8 is 3 more than 5.'

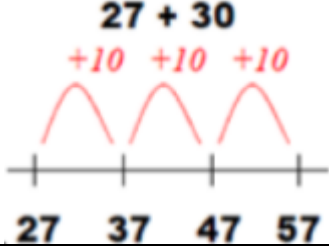

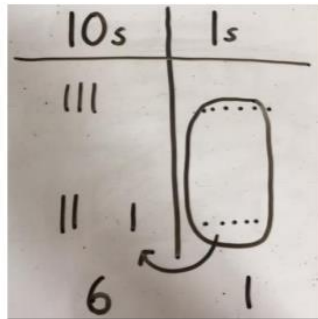

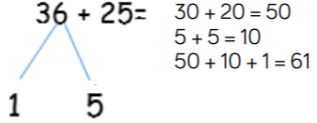

## Year 2

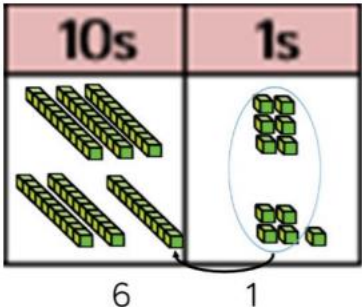

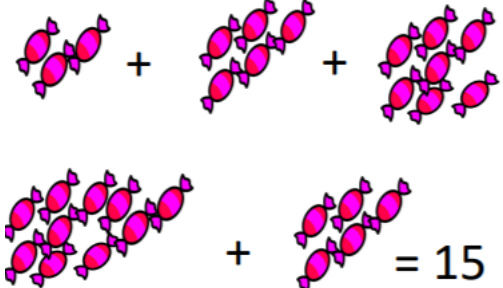

Fluency	End of year expectations
<p>Show increasing fluency in deriving pairs of numbers up to 10 and then up to 20</p> <p>Use knowledge to derive and use number facts up to 100</p> <p>Add numbers mentally including:</p> <p>TO + O TO + tens TO + TO O + O + O</p>	<p>Children should be able to partition numbers in different ways e.g. as 2+2+2+1 or 5+3 or 23 as 20 +3 or 10+13</p> <p>TO + O TO + tens TO + TO O + O + O</p> <p>Children should use concrete objects, pictorial representations and add numbers in different contexts e.g. money, measures</p> <p>Children should understand the language of sum.</p> <p>Ensure children understand that addition is commutative (can be done in any order)</p>

Objective and strategy	Concrete (build it)	Pictorial (draw it)	Abstract (write it)
<p><b>Adding multiples of ten</b></p>	<p>Model using dienes and bead strings</p> <p><math>50 = 30 + 20</math></p> 	<p>Use representations for base ten</p> 	<p><math>20 + 30 = 50</math></p> <p><math>70 = 50 + 20</math></p> <p><math>40 + \square = 60</math></p>

Objective and strategy	Concrete (build it)	Pictorial (draw it)	Abstract (write it)				
<p><b>Use known number facts</b> <b>Part part whole</b></p>	<p>Children explore ways of making numbers within 20</p> 		$\square + 1 = 16$ $16 - 1 = \square$ $1 + \square = 16$ $16 - \square = 1$				
<p><b>Using known facts</b></p>	<p>If I know that <math>3+3=6</math>, I also know that <math>30+30=60</math></p> 	<p>Children draw representations of T and O</p> 	<p><math>3 + 4 = 7</math>  <i>leads to</i>  <math>30 + 40 = 70</math>  <i>leads to</i>  <math>300 + 400 = 700</math></p>				
<p><b>Bar model</b></p>			<table border="1" data-bbox="1587 951 1913 1045"> <tr> <td style="text-align: center;">23</td> <td style="text-align: center;">25</td> </tr> <tr> <td colspan="2" style="text-align: center;">?</td> </tr> </table>	23	25	?	
23	25						
?							

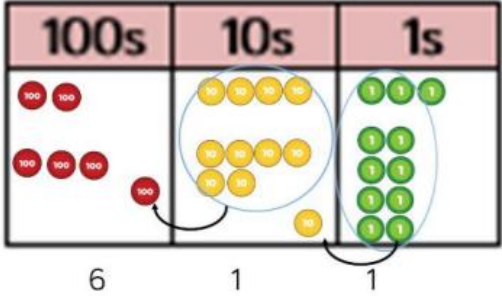

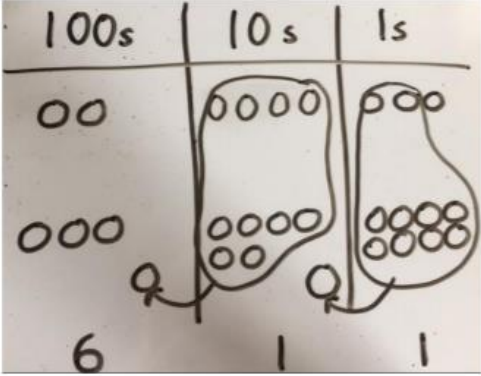

<p><b>Add a two digit number and ones</b></p>	<p>TO + O using base 10. Continue to develop understanding of partitioning and place value. <math>41 + 8</math></p> 	<p>Children to represent the base 10 e.g. lines for tens and dot/crosses for ones</p> 	<p><math>41 + 8</math></p>  <p><math>1 + 8 = 9</math> <math>40 + 9 = 49</math></p> <p><math>1 + 8 = 9</math> <math>40 + 9 = 49</math></p>
---	---	---	--

Objective and strategy	Concrete (build it)	Pictorial (draw it)	Abstract (write it)
<p><b>Add a 2 digit number and tens</b></p>	<p><math>25 + 10 = 35</math> Explore that the ones digit does not change</p> 	<p><math>27 + 30</math></p> 	<p><math>27 + 10 = 37</math> <math>27 + 20 = 47</math> <math>27 + \underline{\quad} = 57</math></p>
<p><b>Add two 2-digit numbers</b></p>	<p>TO + TO using base 10. Continue to develop understanding of partitioning and place value. <math>36 + 25</math></p>	<p>Children to represent the base 10 in a place value chart</p> 	<p>Looking for ways to make 10.</p>  <p><math>36 + 25 =</math> <math>30 + 20 = 50</math> <math>5 + 5 = 10</math> <math>50 + 10 + 1 = 61</math></p>

	 <p style="text-align: center;">6      1</p>		
<b>Add three 1-digit numbers</b>	<p>Combine to make 10 first if possible, or bridge 10 then add third digit</p> 	<p>Regroup and draw representation.</p> 	<p>Combine the two numbers that make/bridge ten then add on the third.</p> $\begin{array}{r} 4 + 7 + 6 = 10 + 7 \\ \quad \quad \quad \underbrace{\quad \quad}_{10} \quad \quad = 17 \end{array}$

<b>Year 3</b>	
<b>Fluency</b>	<b>End of year expectations</b>
Count in ones, tens and hundreds maintaining fluency through varied and frequent practice (forwards and backwards)	Add numbers with up to three-digits (leading to formal written column method)
Count from 0 in multiples of 4, 8, 50 and 100	Solve problems in different contexts including missing number problems
Find 10 or 100 more than a number	Children should partition numbers, up to 1000, in different ways
Mentally add HTO + ones, HTO + tens, HTO + hundreds	e.g. 100 + 40 + 6 or 100 + 30 + 16

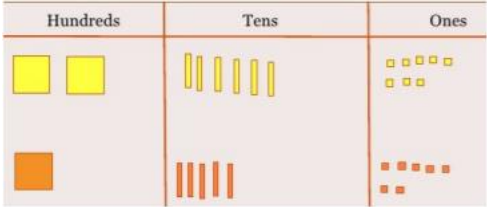

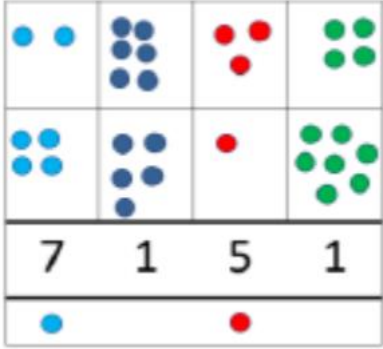

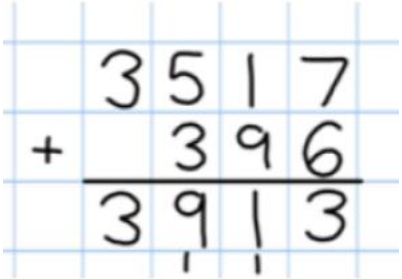

Perform mental calculations with two-digit numbers, the answer could exceed 100

Objective and strategy	Concrete (build it)	Pictorial (draw it)	Abstract (write it)
<p><b>Column Addition</b></p>	<p>Use of place value counters to add HTO + TO, HTO + HTO etc. When there are 10 ones in the 1s column- we exchange for 1 ten, when there are 10 tens in the 10s column- we exchange for 1 hundred.</p> 	<p>Children to represent the counters in a place value chart, circling when they make an exchange.</p> 	<p>Move on to the formal column method of addition. Add the ones first, then the tens, then the hundreds.</p> $  \begin{array}{r}  243 \\  +368 \\  \hline  611 \\  \hline  11  \end{array}  $

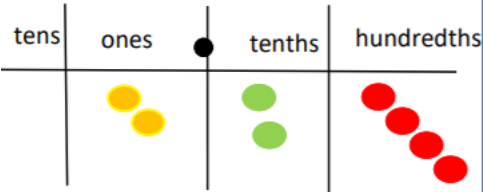

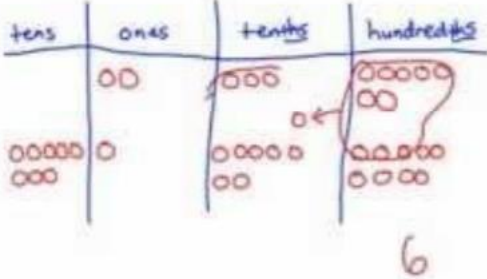

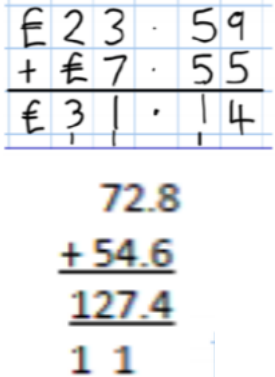

## Year 4

Fluency	End of year expectations
Count in 6s, 7s, 9s, 25s and 100s	Add numbers with up to four-digits (formal written column method)
Find 1000 more than a number	Solve two-step problems in different contexts including missing number problems
Perform mental calculations with increasingly large numbers to aid fluency	

Objective and strategy	Concrete (build it)	Pictorial (draw it)	Abstract (write it)
<b>Add numbers with up to 4 digits</b>	<p>Children continue to use dienes or place value counters to add, exchanging ten ones for a ten and ten tens for a hundred and ten hundreds for a thousand.</p> 	<p>Draw representations using place value grid.</p> 	<p>Continue from previous work to carry hundreds as well as tens. Relate to money and measures.</p> 

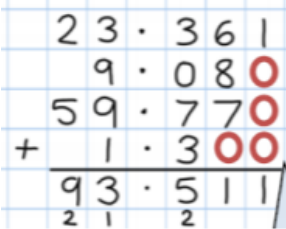

## Year 5

Fluency	End of year expectations
Count forwards in powers of ten up to 100000	Add numbers with more than four-digits (formal written column method)
Count forwards in positive and negative whole numbers through zero	Solve multi-step problems selecting and justifying methods
Practise mental calculations with increasingly large numbers	Practise mental calculations with increasingly large numbers
Practise fluency of written methods	

Objective and strategy	Concrete (build it)	Pictorial (draw it)	Abstract (write it)
<b>Add decimals with 2 decimal places, including money.</b>	<p>Introduce decimal place value counters and model exchange for addition.</p> 	<p><math>2.37 + 81.79</math></p> 	

## Year 6

<b>Fluency</b>	<b>End of year expectations</b>
Count in tens and hundreds increasing fluency of order and place value	Add numbers with more than four-digits (formal written column method)
Perform increasingly complex mental calculations and those with increasingly large numbers to aid fluency	Solve more complex calculations mentally
<p>Children should extend the carrying method to number with any number of digits. Using similar methods, children will</p> <ul style="list-style-type: none"> <li>add several numbers with different numbers of digits;</li> <li>begin to add two or more decimal fractions with up to four digits and either one or two decimal places;</li> <li>know that decimal points should line up under each other, particularly when adding or subtracting mixed amounts, e.g. <math>401.2 + 26.85 + 0.71</math>.</li> </ul>	

<b>Objective and strategy</b>	<b>Concrete (build it)</b>	<b>Pictorial (draw it)</b>	<b>Abstract (write it)</b>
<p style="text-align: center;"><b>Add several numbers of increasing complexity</b></p> <p>Including adding money, measure and decimals with different numbers of decimal points.</p>	As Year 4/5	As Year 4/5	<p>Insert zeros for place holders.</p> <div style="text-align: right; margin-top: 10px;">  </div>

			$\begin{array}{r} 81,059 \\ 3,668 \\ 15,301 \\ + 20,551 \\ \hline 120,579 \\ \small 1111 \end{array}$
--	--	--	---
