Types of stitch

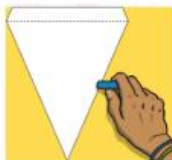

running stitch

overcast stitch

Using a **template**

Carefully trace around your **template** then remove it from the felt.
Then cut around your line.

In this unit I will

Design:

- * Use what I have found from other puppets to help me design a puppet .
- * Label my design and identify what materials and components I will need.

Make:

- *Use a template to cut fabric pieces and use the correct methods to join the fabric together.
- *Decorate the product using different materials and joining techniques.

Evaluate

- *Say what I like about my puppet and how it compares to my original design.
- *Say what I could do to improve my puppet

Key Definitions

appealing	To be attractive or interesting to who you are making the product for.
evaluate	To think and assess and make a judgement on how a task has been carried out.
fabric	Cloth material used to make clothes and other products. For example, felt, cotton or wool
join	Used to link or fasten different parts together securely.
mock-up	A model which is used to try out ideas before making a final product .
product	The object that is made at the end of the making process.
template	A shaped piece of rigid material used as a pattern for processes such as cutting out or shaping.
