

## Maths

In Maths this term we are continuing our learning about measure. The children will compare different capacities and volumes, they will learn how to tell the time on an analogue clock to the nearest ten minutes and learn how to recognise the value of different coins.

We will then begin learning about fractions, recognise, finding, naming and writing fractions  $\frac{1}{3}$ ,  $\frac{1}{4}$ ,  $\frac{2}{4}$ , and  $\frac{3}{4}$  of a length, shape, set of objects or quantity.

## Art/DT

In Art this term our focus artist is Beatriz Milhazes. The children will be learning about printing and how to create patterns of lines, patterns of shapes and patterns of colour.

## Music

In music this term the children will be exploring a musical sound, building on their knowledge of rhythm, beat and pulse.

## Computing

This computer unit is focused on robot algorithms. The children will learn how to programme a computer to follow a list of instructions, learn about algorithms and how to debug a programme.

## History

In History this term, the children will be locating coastal areas around the UK and learning about how people in modern day Britain enjoy the seaside. They will then compare this to how the people of the Victorian era enjoyed the seaside and answer some key questions:

Why did Victorian people go to the seaside?  
What clothes did Victorians wear at the seaside?

What could you do at the seaside during the Victorian period?

## RE

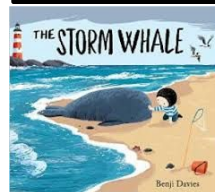

Islam and Prayer begin to understand that Muslims believe in one God, who they call Allah, and that Allah's 99 beautiful names express who Allah is for Muslims. The children will also build on prior learning through exploring and comparing how different religious communities pray, and to consider why other people choose not to pray.

## Year 2 - Summer 1

### *Power of Reading*

#### *Texts:*

**The Storm Whale**  
**The Secret of the Black Rock**

#### **English:**

This term we are learning how to create, write and perform a poem based on our class text. The children will also focus on nonfiction writing. They will be analysing the key features of a letter and they will be producing a non-chronological report about whales.

#### **Science:** Living things and their habitats

This Science unit is focused on offspring. The children will learn about the life cycles of different animal species including humans. They will also answer key questions:

What do animals need to survive?

What is an offspring?

What is a lifecycle?

Do all animals young look similar to them?

#### **PE:**

In athletics this term the children will learn about the importance of spatial awareness and learn techniques for sprinting quickly, throwing for distance and producing power in their jumps.

#### **PSHE**

This term the children will learn about relationships and that everyone's family is different. They will also learn to recognise what physical contact is acceptable and what is unacceptable and how to work through problems with their friends.

#### **Key Dates:**

Year 2 - Chertsey Museum  
(Victorian seaside) 29th April
